

Baptist Care SA works with Aboriginal Elders and Leaders and is committed to learning from those emerging.

We encourage continued connection to emotional, social and spiritual wellbeing while being focused on creating person centred, strength based, positive change.

We will continue to empower Aboriginal communities, embed cultural practices, and strive to Close the Gap through healing and truth telling.

Despite making up 3.3% of Australia's population, 20% of people experiencing homelessness identify as Aboriginal and Torres Strait Islander.

The child mortality rate for Aboriginal and/or Torres Strait Islander children is twice the rate for non-Aboriginal and/or Torres Strait Islander children.

Around one in 12 Aboriginal and Torres Strait Islander adults are part of the Stolen Generations.

Baptist Care SA walks alongside some of our community's most vulnerable people.

Please join us in praying for their wellbeing.

Pray that Aboriginal and/or Torres Strait Islander people will be welcomed into decision making processes that impact their rights and lives, that their voices will be heard and that positive changes will take place.

Pray that the reconciliation process between non-Indigenous and Aboriginal and/or Torres Strait Islander people in Australia will continue to grow and bring incredible transformation.

Pray that together we will overcome division, misunderstanding and inequality.

Pray that future generations of Aboriginal and/or Torres Strait Islander people will experience peace and flourishing.

Pray for ways to personally support them to create a thriving future for themselves, their children and young people.

Pray for a growing appreciation and understanding of Aboriginal and/or Torres Strait Islander people culture.

Pray for the strengthening of family and community relationships among Aboriginal and/or Torres Strait Islander people, especially for those who have been separated from country and Kin as a result of the pandemic.

Pray that Aboriginal and/or Torres Strait Islander people will flourish and thrive in every way and that future generations will no longer be over-represented in areas of disadvantage, marginalisation and ill-health.
